

EMB MIMAROPA HOSTED THE TRAINING ON CALIBRATION OF LABORATORY EQUIPMENT IN CORON, PALAWAN

The Environmental Management Bureau MIMAROPA Region hosted the "Training on Calibration of Laboratory Equipment for Mass Measurement and Its Application to Measurement Uncertainty Estimation for Chemical Analyses" on 20-24 September 2022 at Tag Resort in Coron, Palawan.

Held in coordination with the EMB Central Office and the DOST-Industrial Technology Development Institute, the workshop equipped EMB Regional Environmental Laboratory personnel from all over the Philippines on the proper conduct of calibration and calculation of Measurement Uncertainty (MU) on Non-Automatic Weighing Instrument (NAWI) and MU calculations for various Environmental Analyses.
